

BUILDING A BETTER FUTURE.

At Holmberg Construction Inc. our goal is to deliver unparalleled service and transformative solutions that protect people and the environment, enhance communities and society, and promote high-performance infrastructure development.

PROJECT MANAGEMENT

Residential

We consistently demonstrate design capability to accommodate the unique requirements of homeowners to exude architectural authenticity, construction quality and true livability. From site development to inspection we understand the challenges our clients face and help them anticipate the next move.

Commercial

We specialize in commercial design, build and maintenance projects including manufacturing or assembly plants, medical centers, retail shopping centres, and standard space for offices. We ensure civil conformance, monitor progress, and secure necessary contracts.

Industrial and Institutional

We respond to the unique industrial construction needs of clients from the front office to the production line to the loading docks. We also support design projects for institutional construction from hospitals to university buildings. We deliver end-to-end new construction, renovation and expansion services on-time and on-budget.

WHO WE ARE

We are a Sault Ste. Marie based, Northern Ontario leader in infrastructure development and construction. We design and develop transformative solutions that safeguard the community and enhance society with customer satisfaction at the forefront. We work hard to bring your ideas and innovations to life.

At Holmberg Construction Inc, there is no job that is too big or small. We pride ourselves with delivering the best results and exceeding your expectations.

OUR PROCESS

Customer satisfaction is at the forefront

DEFINE > MEASURE > ANALYZE > IMPROVE > CONTROL

SERVICES

20+ YEARS OF EXPERIENCE

SPECIALTIES

- Project Planning & Design
- Inspection & Environmental Assessment
- Civil Conformance & Site Supervision
- Detailed Site Surveying & Contract Administration
- Project Management, Budgeting & Coordination
- Specialized Engineering Services

Road & Parking lot

We have extensive experience in parking lot construction and reconstruction to provide a complete solution from layout to curbs and asphalt. This also includes, grading, trenching, resolving irrigated areas, road and sub-base repairs. We are equipped to handle every project from start to finish.

Site Development

We provide full site development and preparation services. These include weeping tile installation, foundation waterproofing, drainage structures, garage pads, landscaping (topsoil aggregates), curb and sidewalk, driveways (asphalt & stone) & more.

Tree Stump & Snow Removal

We are equipped and experienced to take care of even the most demanding residential and commercial properties when it comes to ice, snow, tree or stump removal.

Water, Sewer & Power

We are specialists in site utilities and main water systems. These include sanitary and storm management systems, deep sewer installation, wastewater collection and electrical work.

And more.
